LOCAL WORKSHOPS

»»» JULY - AUGUST 2025

The STELLA project consortium is proud to share the latest achievements under the Erasmus+ KA220 initiative. Over the past months, partners have been implementing a series of local workshops across Italy, Greece, Malta, Portugal, and Cyprus, engaging more than 400 youngsters. Inspired by the activities and methods explored during our Training of Trainers, these sessions offered young people a chance to connect sport with environmental awareness in fun and meaningful ways. Through interactive exercises, discussions, and teamwork, participants reflected on how everyday actions can make a difference and how sport can serve as a driver for positive change. The workshops also placed strong emphasis on inclusion, encouraging diverse perspectives and ensuring that young people from different backgrounds could actively take part. The energy and ideas that emerged show the strong potential of youth to lead the way in building a more sustainable future.

UPDATES & UPCOMING EVENT

- The next & last TPM will be held in Braga, Portugal during the project's final conference in December 10-13, 2025. Both events will be hosted by our Portuguese partner Synergia.
