## “SUCCESSFUL IMPLEMENTATION OF THE INTERNATIONAL ROUND TABLE EVENT IN PORTUGAL”

»»» DECEMBER 2025

The STELLA project consortium is proud to share the latest achievements under the Erasmus+ KA220 initiative. From December 10 - 13, 2025, our Portuguese partner, Synergia, hosted a two-day International Round Table in Braga that brought together more than 25 international stakeholders and 100 local participants. Young people and key stakeholders met to follow the development of the STELLA project, exchange best practices, and actively contribute to shaping new policies for environmental education and sustainability. The programme combined project presentations, hands-on workshops using the STELLA Toolkit, panel discussions with local experts, and round tables focused on concrete actions and policy recommendations, with a strong emphasis on environmental education through sport.

# "SUCCESSFUL IMPLEMENTATION OF THE FOURTH TPM IN PORTUGAL"

On December 11th and 12th, 2025, Synergia also hosted the fourth transnational partners' meeting in Braga, Portugal. Partners reviewed the tasks and objectives achieved throughout the project, assessed the progress of all outputs, and reflected on the impact generated so far. The meeting also focused on the remaining actions needed to successfully close the project, including final deliverables, dissemination activities, and administrative steps. This last TPM ensured alignment among partners and confirmed a shared commitment to completing the project in a coherent, high-quality, and sustainable manner.
